

A Letter from Michelle

Hello,

My name is Michelle Cevallos. On behalf of all of us who have been operated on, we wish to thank you for your gracious work. When my mother enrolled me in the group she did not only sign me up for the series of surgeries but also I was given the gift of a new family, a few daddy doctors and a few mommy doctors, and a few sisters and brothers who were operated on like me.

Each year that goes by the painful process of the surgery fills me up with emotion when I see the happy faces of you and the loving way that you treat us. I don't have regrets of my life of being born without an ear because now I have been given this gift by you all "my new family".

Thank you one and a thousand times for my new special ear. We will be seeing each other next year.

Happy traveling for all of you!

One immense KISS,

Chao,

Michelle
